

Snorkeling

Maldives - due to its abundant marine life is a famous destination for snorkeling. Especially the southern Atolls are well known for their largely untouched and beautiful coral reefs. We will take you snorkelling on a daily basis either on a guided tour along our beautiful house reef or on a boat excursion.

Activities

Snorkel Course - USD 60++

For guests new to snorkeling we offer this course where we explain how to prepare and use the equipment and start practising in the sheltered water of the lagoon.

Guided tour along our House Reef - USD 30++

After a briefing by our experienced snorkel guide about the interesting marine life which waits just beneath the surface, we go on a 45 – 60 minutes snorkel tour getting in and out of the water conveniently right at the dive school jetty. Many different kind of colourful reef fish like snappers, surgeon fish, schools of jackfish and maybe even a turtle or an eagle ray are out there waiting.

1/2 Day Snorkel Trip by Boat - USD 55++

There are more sites to discover apart from our beautiful house reef. By local Dhoni we go to different spots for a change of scenery. A knowledgeable guide will accompany the excursion and make the snorkelling trip unforgettable. The marine life is plentiful and count on discovering napoleon wrasses, anemones with the two different kinds clown fish we only encounter here in the Maldives and of course the big tunas that are ever present.

Night Snorkeling at the house reef - USD 48++

Once a week we offer the opportunity to experience something different and special. Did you know that at night parrotfish wrap them selves in a cocoon of mucus to avoid detection by predators? Puffer fish find a cosy sleeping spot usually right on top of a piece of coral. Lobsters, crabs, moray eels and lion fish come out to hunt at night. Equipped with a torch you can discover all this when we go snorkelling at night!

Equipment
